EVEREST

EVEREST TEXTILE

Bio Based - Nylon

Bio Based

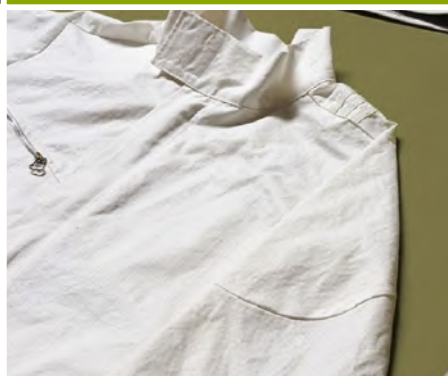

4-way Stretch

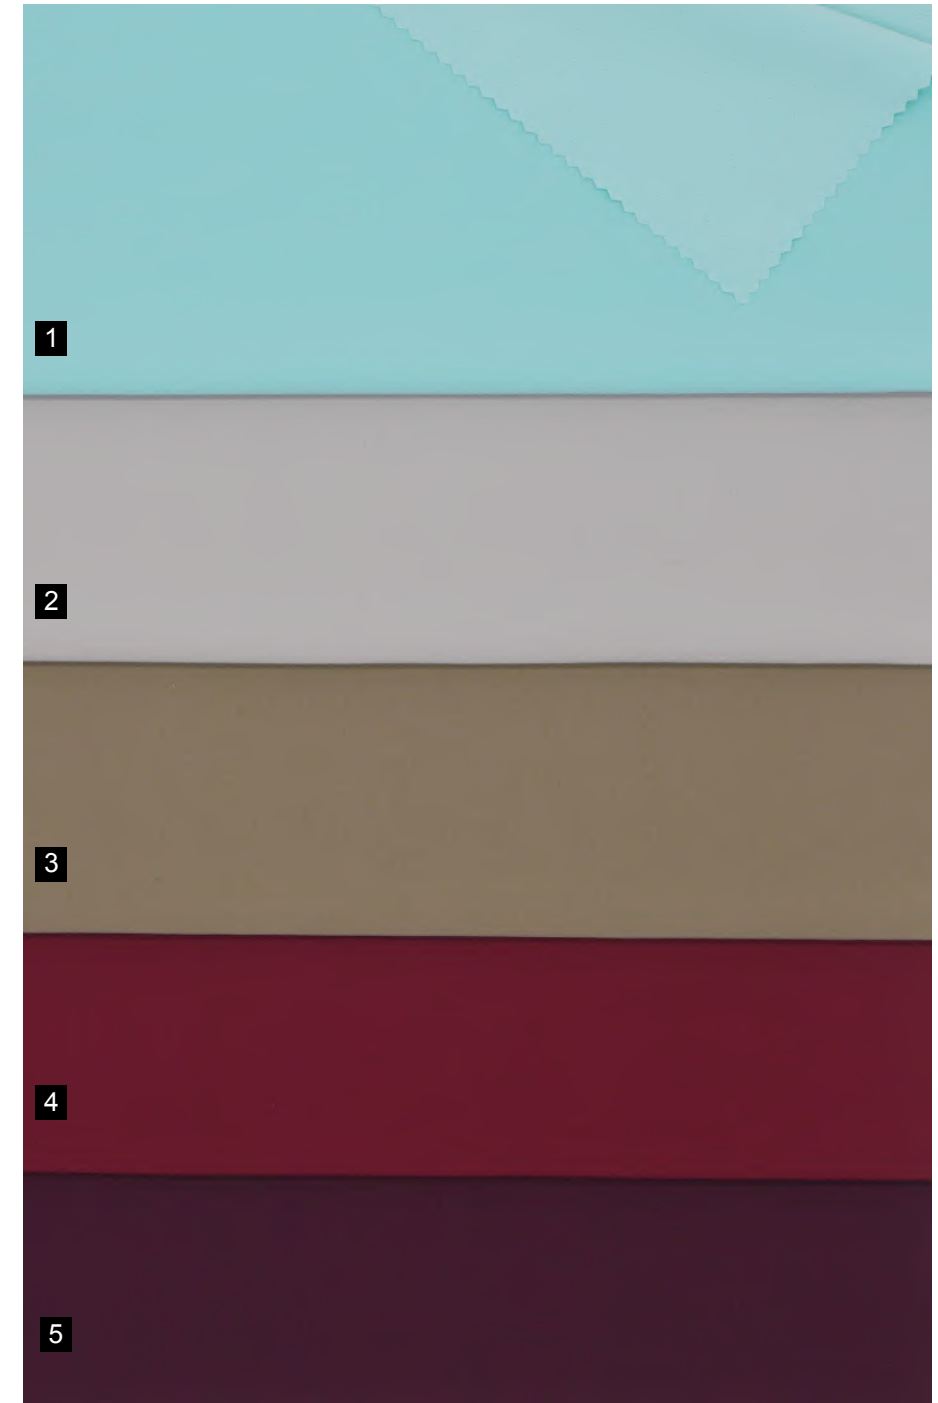

Anti-Abrasion

Nylon yarn with 45% bio-content
Good abrasion
Four-way Stretch

Bio-based Nylon is using PA 56 fiber (Teryl®) with 45% renewable content, taken from natural materials to lower the influence for environment, possessing the same quality characters as petroleum-based nylon without compromise.

SolarFree - Nylon

4-way stretch
Wicking
UPF50+
NIR Reflective rate >70%
Anti-sun damage

Anti-UV

Moisture Management

SolarFree® can reflect near infrared radiation, visible light and ultraviolet. Shielding skin from radiation heating and skin damage, as to maintain cooler temperature under direct sunlight.
